Marques Stevenson, USAFA Class of '15, Wharton graduated May 14th.

YOU ARE YOUNG, GIFTED, AND BLACK

The Air Force Academy represents the apex of academic achievement for many individuals. The prestige and networking opportunities that come with the rigorous four-year program can provide a springboard for success throughout one's military career. Nevertheless, the Academy experience marks the beginning of an exciting, lifelong journey for others.

This summer, we celebrate our alumni who have earned advanced degrees. Your hard work, dedication, and commitment to excellence have culminated in this remarkable accomplishment. We applaud your perseverance and recognize your significant contribution to your respective fields. Wishing you continued success and inspiring our community.

RECOGNITION

We are excited to celebrate the achievements of the Academy's Class of **2026** (that's right, 2026!) who completed Recognition in April. We applaud our cadets for their grit, determination, and perseverance in successfully completing this milestone. Their dedication and commitment to excellence serve as an inspiration to us all.
